Every Man Between 18 and 45 Years of Age, Not Already Registered, Must Register For Selective Draft Thursday September 12---Be Prompt

FIRST DAY OF CURB MARKET: MANY BUYERS; TRUCKERS FEW

The first day of St. Cloud's curb market was held on Pennsylvania avenue between Tenth and Eleventh streets on Tuesday morning and promptly at seven o'clock the first trader put in her appearance...

market in full swing before the city is filled with winter visitors, so that as the season for other vegetables comes on there will be a well established market where the people may select what they desire and buy direct from the growers.

13,000,000 MEN MUST REGISTER IN DAY Men of Every Nationality (Age 18 to 45 Inclusive), Must Be Registered To Provide Army to End World War.

The Department of War has cut out for itself a herculean job--THE REGISTRATION OF THIRTEEN MILLIONS OF MEN IN A SINGLE DAY. It has planned to list every man in the country who is 18 to 45 years old (both ages inclusive), excepting those previously registered, on Selective Service Registration Day--which is on SEPT. 12.

BUSINESS MEN OF ST. CLOUD ASKED TO JOIN FIRE DEPT.

At the regular meeting of the members of the St. Cloud Volunteer Fire Department held in the city hall last Monday a resolution was adopted calling on the public-spirited business men of this city to volunteer for membership for vacancies made in the ranks by enlistment of so many of our young men in the service of the government during the last three months.

"Whereas it is necessary that the department be kept up to its utmost efficiency, in order to obtain better insurance rates on the properties in this city; and

DOES THE SEABOARD AIR LINE PLAN TO CONNECT ST. CLOUD?

Persistent rumors that the Atlantic Coast Line railroad would make the St. Cloud branch of that line a part of its main line by extension through Narcoossee to Orlando have been in circulation in this section for some time, but no confirmation of the report could be had.

company proposed to extend that line to Prairie Ridge and purchase the South Florida and Gulf line to Kenansville, and from that point build through St. Cloud to Orlando, where it would connect with its line which reaches that city from Jacksonville.

TEAM WORK EVERYWHERE.

Any effort that can bring every man of the age specified (18 to 45) to realize that he MUST register should not be omitted. He should be made to appreciate registration as a patriotic obligation, but the neglect of which will entail on him a year in prison.

CHAIRMAN WAGNER'S WAR SAVINGS NEWS-COMMENTS

Kissimmee, Fla., Sept. 3, 1918. To the People of Osceola County: The war-savings stamps campaign for the week of Sept. 9 to 14, inclusive, is now the next important move for us to look forward to.

All that is necessary is to go to a selling agent and explain how many you want. He or she will do the balance. Don't forget that each \$5 stamp costs only \$4.29 this month. Get the limit of \$840 while you are at it. Help to keep the Huns on the run.

BRICK PURCHASED MONDAY TO FILL GAP TO KISSIMMEE

At the meeting of the County Commissioners last Monday bids were opened on the purchase of brick and other materials for the purpose of completing the three miles of unfinished road between the cities of St. Cloud and Kissimmee, and an order was placed with the Osceola Hardware Company for the necessary materials, at being the lowest bidder.

can be made. It is planned to get the materials shipped before the opening of the fruit season, in December. This road will be paid for out of the 7-mill hard-road tax, there being a balance on hand from last year of about \$9,000, which will make enough, with this year's tax, to complete the three miles necessary to fill the gap.

PREPARATION BY THE GOVERNMENT.

Thousands of Registration Boards will be ready on Registration Day (Sept. 12) to take care of the millions who must register that day. The great registration organization, brought to perfection when the men 21 to 31 years old registered, is expected to surpass the wonderful record it made in the first registration.

BONDS FOR ROAD DISTRICT NO. 3 SELL ABOVE PAR VALUE

When bids were opened on selling the \$46,500 worth of special road and bridge district bonds last Monday by the County Commissioners, it was discovered that there were five bidders and that the bonds could be sold for par and above.

REGISTRATION BOOKS OPEN AT PORTER'S FOR GEN. ELECTION. Registration books for the general election to be held in November, were opened for precinct registration in the St. Cloud district, at the office of S. W. Porter last Monday. Voters who are not sure that they have been properly enrolled for the general election should call at once and enter their names.

WESTERN UNION TELEGRAPH OFFICE NOW IN THE ALCOVE

The Western Union Telegraph Company has selected Miss Clara Reynolds as manager of its office for St. Cloud, and the telegraph business here in future will be handled from the Alcove, on New York avenue.

FLORIDA GETS WINTER TOURIST RATES.

Tourist rates will be in effect for Florida this winter. Senators Fletcher and Trammell had a conference with Director-General of Railroads McAdoo on this subject, after which they were able to impart this important information to the newspaper representatives.

WHY SPEED IS NEEDED.

The enlarged military program requires that the selective-service system, which must supply the additional soldiers needed, shall have a Class 1 of more than 2,000,000 available to be drawn from on and after Oct. 1 next. In order to obtain 2,000,000 of Class 1 men, the Nation must register about 13,000,000 more men FOR CLASSIFICATION. These 13,000,000 represent the total of our males who are 18 to 21 and 32 to 45 years old.

GOVERNMENT TO ORGANIZE MANAGERS OF HOTELS, ETC., IN EACH FLORIDA COUNTY

Federal Food Administrator Beach announces that he has instructed Harry L. Becman, supervisor of hotels, etc., in Florida, to organize the managers or owners of hotels, restaurants, and other public eating places in each county in this State.

extensive trip through the Northern States, where he carefully studied the methods in hotels catering to summer tourists. He found each hotel is carefully complying with the Federal food regulations. His visit was made largely in view of dealing with the prospective large influx of tourists into Florida this coming winter.

TRIBUNE EDITOR MADE CHAIRMAN OSCEOLA COUNTY FOURTH LIBERTY LOAN

Claud E. Johnson, editor of the Tribune, was this week appointed chairman of the publicity campaign to be waged in Osceola county in the interest of the fourth Liberty loan issue which will be called for at an early date.

loan. The letter of appointment, received Monday, is as follows: Kissimmee, Fla., Sept. 2, 1918. Claud E. Johnson, St. Cloud, Fla. Dear Sir: I take pleasure in appointing you as county publicity chairman for the Fourth Liberty Loan Campaign.

Registration Places and Officers in Osceola

- Every man between 18 and 45 years old (excepting men who heretofore have registered) MUST register at his regular place of voting on Sept. 12. This means every man who HAS attained his 18th birthday and who has NOT attained his 46th birthday. The Osceola County Exemption Board has appointed the following men to serve as registration officers on Sept. 12: ST. CLOUD--G. C. Outlaw, Fred B. Kenney, S. W. Porter, and C. F. Johnson. Registration place, City Hall.

# PLUMBING

FOR YOUNG AND OLD

the pleasures of the bath are manifold. Don't let poor plumbing put a damper on the healthful pleasures of immersion. If we install your plumbing and look to its very occasional repairs you'll find a satisfaction with the job and you can spell that word in big letters; it's imprinted on every job that we do.

# \$20,000,000 SPENT FOR GERMAN PLOTS IN UNITED STATES

Official Account of German Intrigue During the Period of Our Neutrality

That the German Government spent between \$15,000,000 and \$20,000,000 on plots and intrigues in this country in the years 1915 and 1916 through a single channel, the office of Doctor Heinrich F. Albert, the commercial attache of the German embassy, is revealed for the first time in the latest publication of the Committee on Public Information, released today.

The title of the pamphlet is "German Plots and Intrigues in the United States During the Period of Our Neutrality." Its authors are Professor E. E. Sperry of the University of Syracuse, and Professor Willis M. West of the University of Minnesota. The sources from which their information is drawn are the official files of the Department of Justice, and the records of the trials conducted by the Department agents, particularly in New York, Chicago, Detroit, and San Francisco.

The story told by these official records as they are painstakingly explained and interpreted is an amazing one. It dots the "i's" and crosses the "t's" to all our conceptions of official German unscrupulousness, effrontery, and lying. It deals with labor leaders corrupted, and strikes caused in munitions plants by German influence, with the German financing of the movement for an embargo on munitions shipments; with the destruction of innocent merchant vessels by bombs planted in their cargoes by German agents in American harbors; with plots for the promotion of sabotage in the United States and in Canada, including the blowing up of the Welland Canal and the Canadian Pacific Railway; with the corruption of American opinion through the newspapers, and lecturers; with the forging of passports to send German reservists abroad; with the supply from American ports of German raiders at sea; with German plots organized here in order to cause revolt in India and in Ireland; with the procurement of perjury and the shameless lying of the German Government. Perhaps history contains no instance of effrontery greater than the issuance to the American press in December, 1915, of the following official lie:

"The German Government has naturally never knowingly accepted the support of any person, group of persons, society or organization seeking to promote the cause of Germany in the United States by illegal acts, by counsel of violence, by contravention of law, or by any means whatever that could offend the American people in the pride of their own authority."

Every line of this pamphlet proves the falsity of their official statement. Among the Germans actively connected with plots and intrigues in this country while enjoying its hospitality were Ambassadors Bernstorff and Dumba; attaches Papez, Boy-Ed and Albert; Franz Bopp, German Consul at San Francisco, and Kurt von Reibnitz, Consul at Chicago. Dr. Buenz and Paul Koenig of the Hamburg-American Steamship Line such minor conspirators as Rintelen, Fay, Gorst, Scheele, Kleist, and a dozen others. The numerous American tools include Ex-Congressman Frank Buchanan, who was active in munitions embargo; Lamar, the "Wolf of Wall Street"; Dr. William Bayard Hale, to whom Count Bernstorff referred as one who could give information concerning the embargo movement; Max Baetzung of Chicago and Albert Koltzschmidt of Detroit, who were connected with attempts to promote explosions; the notorious Jeremiah O'Leary, Irish agitator and editor of a seditious publication called "Bull"; George Sylvester Viereck, whose paper the "Fatherland" was financed by the German Embassy, and a host of others.

Of the bomb industry, with its 300 to 400 bombs manufactured, and fires in 23 ships sailing from New York, we get this glimpse in the testimony of a witness in the case against Captain von Kleist, in the New York courts: "We sat down and we spoke for about three hours \* \* \* I asked him the different things that he did, and said if he wanted an interview with Mr. von Igel, my boss, he would have to tell everything. So he told me von Papez gave Dr. Scheele, the partner of von Kleist in this factory, a check for \$10,000 to start the bomb factory \* \* \* He told me, that he, Mr. von Kleist, and Dr. Scheele, and a man by the name of Becker on the Friedrich de Grosse, were making the bombs, and that Captain Wolpert, Captain Bode, and Captain Steinberg

had charge of putting these bombs on the ships; they put these bombs in cases and shipped them as merchandise on these steamers, and they would go away on the trip and the bombs would go off after the ship was out four or five days, causing a fare and causing the cargo to go up in flames \* \* \* He also told me that they have made quite a number of these bombs; that thirty of them were given to a party by the name of O'Leary, and that he took them down to New Orleans where he had charge of putting them on ships down there, this fellow O'Leary."

Of equal if not greater interest is the following intercepted radiogram sent from Berlin in January, 1916, to Ambassador Bernstorff:

"Jan. 26. For Military Attache. You can obtain particulars as to persons suitable for carrying on sabotage in the United States and Canada from the following persons: (1) Joseph McGarrity, Philadelphia, Penn. (2) John P. Keating, Michigan Avenue, Chicago. (3) Jeremiah O'Leary, 16 Park Row, New York. One and two are absolutely reliable and discreet. No 3 is reliable, but not always discreet. These persons were indicted by Sir Roger Casement. In the United States sabotage can be carried out on every kind of factory for supplying munitions of war. Railway embankments and bridges must not be touched. Embassy must in no circumstances be compromised. Similar precautions must be taken in regard to Irish pro-German propaganda. (Signed)

"Representative of General Staff." Copies of this pamphlet with its interesting disclosures may be obtained free by writing to the Committee on Public Information, 5 Jackson Place, Washington, D. C.

### LETTER FROM COMRADE J. N. BURCH IN ILLINOIS

Dear Friends:  
I came away from Elmwood on the 7th inst, two days ago, at which time it was oppressively warm, and I found it warmer in the city on my arrival than I had ever experienced in Chicago before. Yesterday the excessively high temperature began to grow less and last night and today are comfortably cool and so far as I have been able to learn the change has come without any violent rainstorms or atmospheric disturbances.

Between here and Elmwood I have seen a greater acreage of oats in shock than I ever saw before, and standing very thick on the ground. Threshing has practically just begun, and as there has been but little rain since harvest it is proceeding quite rapidly and with an abundant yield. Corn between here and Elmwood is not generally as well advanced in growth as it is in Peoria, Fulton and Knox counties. The crop in those counties is practically assured without any more rain, but considerable of it between here and there of late planting will need rain to make much of a yield. You can readily imagine the beautiful prospect presented by the broad fields of Illinois laden as they now are with great fields of harvested grain and the immense fields of dark green growing corn stretching away in all directions, almost beyond the limit of vision, and surely nothing better could be more desirable from a material standpoint, than the beautiful promise of abundant yield, shown all over these glorious Illinois fields. Truck crops and garden products of all kinds very abundant, and all available space in villages and cities have been planted to some kind of a crop.

Greater efforts are being put forth by the Government to win the war, so there is no question but the abundant productions of our greatly favored land will play a most important part in putting down villainous, butchering German hordes.

The warm weather has caused me considerable suffering with my army wounded leg, with which I was almost crippled for a while. I have been obliged to remain quiet and inactive on account of the pain and soreness. I shall probably remain here until sometime during the third week in this month before returning to Elmwood. In the rather hurried manner of my departure I forgot the letter containing your daughters' address, and it has occurred to me that you could send it to me about as soon as I could expect to get it by having my folks send it to me from Elmwood, so please send it to me here and oblige. I did not get to see Joe, but hear that he is working near Trivola.

With kind regards to all St. Cloud friends and hoping this may find you all well, I remain,

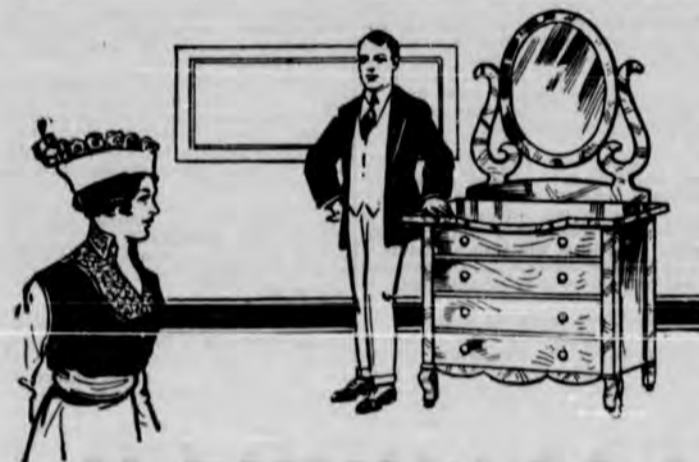

Very truly and sincerely yours,  
J. N. BURCH.

## Registration Notice

The registration books for enrollment of voters to participate in the November general election at the office of the registration officer at Kissimmee Monday, August 5, 1918, until October 12.

The precinct registration books will be open in the several precincts on Monday, September 2 until Saturday, October 12.

All voters who desire to participate in the general election in November, and who have not been properly registered heretofore, are notified that they must be registered during these dates. The removal from one precinct to another since registering will require changing the records in this office accordingly.

Respectfully,

E. D. KATZ

Registration Officer Osceola County, Kissimmee, Florida.

The books of the Florida Citrus Exchange and of all Sub-Exchanges and local associations are audited at frequent intervals by disinterested and competent experts.

These precautions and many others, taken for the protection of growers who are members, will be explained to any person interested enough to write to the Florida Citrus Exchange at Tampa, Fla., or to call in person on

COMING VISITING GOING
ST. CLOUDLETS
LOCAL PERSONAL SOCIAL

You can pay county or city taxes at A. E. Drought's office. 20-ft

Receiver Johnson was a business visitor to Orlando on Thursday last.

Will Barber and Bert Gessford were among the many who left Monday for Brunswick, Ga.

Mrs. Anna Meaty and grand-daughter, Ruth Daniels, who have been visiting Mrs. Meaty's son, T. E. Meaty, and his family, at Mobile, Ala., returned home Saturday morning.

Mr. and Mrs. Paschal Strode of Massachusetts avenue, who have been spending the summer at their former home, in Ohio, returned here Saturday evening.

The Junior Epworth League of Kisminee, chaperoned by Mrs. Bratton and Misses Bratton and Albert Hopson, picnicked at Hammock Grove on Thursday evening last. All the young folks had a most enjoyable time.

The Christian Endeavor Society of the Christian Church held a social on the church lawn Tuesday evening, the Purple entertaining the Gold—the latter as winners in the contest for new members.

Mrs. Cooke presented to the Sunday school of the Presbyterian church last Sabbath morning the matter of helping to support a French orphan, and in less than ten minutes about \$11 was subscribed. St. Cloud has many calls for benevolent work just now, but none is "turned down."

Dr. Martin, district superintendent for the Methodist Episcopal Church in this section, will lecture in the local church Friday evening. He will also conduct the Methodist Quarterly Conference here. Saturday afternoon he will address the Veterans' Association. See further announcements among the church news.

Comrade D. K. Hall returned home last Friday evening from a visit of several weeks in Minnesota and Wisconsin. He reports the crop conditions throughout that part of the country as being highly pleasing.

Mrs. A. Thomas of Pennsylvania avenue returned home Thursday evening, after spending the summer at her old home, in De Witt, Neb. She stated that the summer was hot and dry and that she is very glad to be at home in Florida again.

Mrs. E. E. Livermore, Mrs. Grace Calkins, Mrs. J. H. McCarthy, Mrs. Franklin, Mrs. Clauson, Misses Kathie Clauson and Ray Stickney, and Mr. Nichols and S. W. Porter motored to Daytona Beach on Sunday to attend the State encampment of the Home Guards, returning here on Tuesday, having had a most enjoyable trip.

Miss Edith Cooke and Mrs. Ray Anderson and little son Cooke, who have spent the summer at the home of their parents, Dr. and Mrs. Cooke, left for their homes, in Iowa, on Thursday morning. They, like many others who have spent a summer in Florida, are delighted with our summer climate, and they hope some time to enjoy a winter in St. Cloud.

Rev. J. E. W. Stewart and family arrived in St. Cloud last Thursday evening after a vacation of two months in Michigan. They report a very pleasant time, but which was marred by the death of Mrs. Stewart's mother. It was gratifying to them to have been with her during her last illness. A committee from the Presbyterian church prepared supper for them on the evening of their arrival. Friday evening the congregation gave them a severe "pounding," and the empty cupboard was well stocked with the things that give comfort to the traveler. A good-sized congregation greeted Mr. Stewart on Sabbath morning and listened to an able sermon on "The Second Coming of Christ."

Those who enjoyed a dance at the Van Denberg boathouse Tuesday evening were Misses Lella Johnson, Emma Murphy, Alma Coble, and Iva Marshall, Mrs. Harry Johnson, Mrs. Lena Bailey, Dewey Montsloca, Liburn and Leon Godwin, Joe Phipps, Tom McClellan, and Harvey Riggan.

J. H. Hargrave motored over from Tampa on Saturday for his week end. He was accompanied home on Monday by his wife and his daughter, who had been spending a week here among friends and relatives.

Gordon Northrop, who has been sojourning in Michigan through the summer, arrived here Saturday afternoon and left on Monday for his home, at Tarpon Springs, going as far as Tampa by automobile with J. H. Hargrave and family.

Miss Marion Harmon, who has been summering at Greensburg, Pa., arrived here Thursday and is the guest of Miss Ruth Bloech until her parents arrive—about Oct. 1.

We are much pleased to see Mr. Cullison again on our streets. He has been ill a long while, but is cheerful and says he will be on Earth a long time yet.

There was quite a demand at the curb market for honey and home-made preserves. Where are our people? Surely a good lot of this can be brought to town.

We notice that some of our folks have nice little patches of cassava. This plant produces enormous roots. These, when grated and made into pudding, the same as tapioca, make an excellent and nutritious food, equal to the best

quality of tapioca. We hope to see some of this on sale at the next curb market.

Mrs. L. L. Harvey and son, Carter Payson, are spending several days with Mr. Harvey's folks, Mrs. J. G. Harvey and family, at Hilliard's island this week.

We notice that our old friend and market gardener, J. H. Boswell, has returned from his summer vacation. We don't just understand how it is that he gets garden truck to grow so quickly, but we would gamble that within a very few days he will have a good showing on market days.

Mr. and Mrs. James Goff, who have been taking an automobile trip during the last three months, have returned to town and see they have had a very enjoyable trip and that also traveling beats railroad business all hollow. They autoed each day until they became tired, and then put up for the night where there were any signs to see. We are glad to welcome them back.

Motor Club Needed In City of St. Cloud

St. Cloud should have a motor club, and such an organization should be formed at once in order to have certain road markings placed through this section before the throng of winter visitors are in our midst.

The State Automobile Association, working in conjunction with local motor clubs, are having all the main highways marked at all important places, and the St. Cloud section is without these uniform guideposts, because we have no motor club.

E. L. Green, of Kisminee, has a large order for these permanent road sign boards, which give the direction and distance to every town along a road, and will supply the whole state where motor clubs have been organized for the purpose of systematic co-operation. These signs are inexpensive, but are very necessary to the traveling public. By organizing a club here and co-operating with the other organizations the highway leading through this city can be properly marked with the uniform system of signposts, and get them at the special rates that are made to the clubs.

In addition to the immediate need of a club to take up the signpost question, a local organization of automobile owners could assist materially in getting road matters attended to throughout this section. We trust that our progressive automobile owners will take this matter up at once and perfect a motor club in this city.

WHY DO ALL DOCTORS PRESCRIBE CALOMEL?

Of all medicines in the world, doctors prescribe calomel most often and depend upon it most universally. There must be a good and sufficient reason. What is it?

If you will study the doctors' books, you will find that the medical authorities prescribe calomel for almost every disease. The reason is that calomel is the greatest and only thorough system purifier. It makes the liver active, drives out the poisons from the stomach, bowels, and kidneys, and thereby purifies the blood. Calomel puts the entire system in the most favorable condition for Nature to exercise her recuperative power. Your doctor will tell you that drugs merely assist Nature. That is why he prescribes calomel so often.

The new kind of calomel, called "Calotabs," is refined and purified from all of the nauseating and dangerous qualities of the old-style calomel and is rapidly taking its place, for it is more effective than the old-style calomel as a liver cleanser and system purifier. One Calotab at bedtime with a swallow of water. That's all. No nausea nor the slightest unpleasantness. Next morning you awake feeling fine, with a hearty appetite for breakfast. Eat what you please—fruits, acids, or anything. No restrictions of habit or diet. Calotabs are sold only in original, sealed packages; price, 35 cents. Recommended and guaranteed by druggists everywhere. Your money back if you are not delighted. (Adv.)

Compulsory Dipping Now Up to Voters

The question of whether cattle dipping shall be made compulsory under supervision of government inspectors in Osceola county or not will be voted on in the November election, the County Commissioners having adopted a resolution at their meeting last Monday to place this question before the voters at the November election in order to save extra expense for a special election on the matter.

At the 1917 session of the Legislature a local-option compulsory-dipping law was enacted, the matter being left to the vote of a majority of the voters in each county as to it becoming effective. At present, Osceola county is under quarantine, and all cattle going out of the county must be dipped. It is now proposed to have the voters determine whether systematic compulsory dipping shall be adopted under government supervision or not, with a view to eliminating the ticks from the county and having the quarantine raised.

Several months ago the commissioners provided for building enough vats to comply with the government's regulations, and up to this time this plan has not been fully carried out, due to the scarcity of material and labor. It was planned to provide vats sufficient for the cattlemen in each part of the county to do their own dipping, and it was believed the dipping would be performed voluntarily. Several other counties have made dipping every fourteen days compulsory, and this now will be voted on in this county.

Preachment on Buying at Home IN TWELVE PARTS PART SEVEN The Psychology of Buying by Mail
There is something appealing about buying things from a distance. For some unknown reason, distance DOES "lend enchantment."
No one has been able exactly to figure out just why this is, but the fact remains.
It is a characteristic of human nature that afflicts all of us, regardless of our bank account, social position, or degree of education.
Any woman would willingly pay twice as much for a hat made in a fashionable Paris establishment as she would pay for exactly the same hat from her home milliner—perhaps just around the corner.
The grass in the next pasture always seems greener and sweeter to the horse because horses can not climb fences.
Because of this weakness, this phase of human nature, the big-city catalog house has been able to grow powerful and rich.
Every time you order goods by mail, you are allowing yourself to be ruled by that something inside of you that tells you that anything from a distance must be better than the things you can get next door.
We all know, if we stop to carefully think, that our feelings are deceiving us. Far practically everything for sale in our home town comes from a distance, too.
"The psychology of buying by mail," as students of human nature call this indefinable feeling that things from a distance must be better, is the foundation cause of the prosperity of the city catalog house—and it invariably works to the detriment of the individual community.

BRET HARTE'S SUPERB STORY IS NEW VEHICLE FOR MARY PICKFORD
The last meeting was held at the pleasant home of Mrs. Thom and her daughter, Miss Dora, corner of Indiana avenue and Eleventh street. Very delicious refreshments were served by the hostesses. Nineteen were present, and two new members were added to the circle.
The next meeting will be at the home of Mrs. Robinson, corner of Pennsylvania avenue and Seventh street. Mrs. Fowler will be the hostess for the afternoon.
More than a generation ago "M'liss" was a reigning stage success, dramatized by Clay Green, a distinguished playwright, who recently was stricken by blindness in California. In the stage version there was a combination of several of the Harte Western stories, and the most famous characters of these will be seen in "M'liss," the latest photo play of the days of '49, starring Mary Pickford.
The new Pickford vehicle, picturized by Frances Marion and directed by Marshall Neilan, has just been released by Artercraft Pictures. It contains all the elements of the Western thriller, including the ineffable charm which "Our Mary" brings to the screen, unusually splendid support, and high artistic directing.
"M'liss" is a delightful feature play, and which will be no less successful in its appeal to the public than have been all of Miss Pickford's recent picture successes. This photo play will be seen at the Palm Theater next Saturday.
Mrs. Ed Eadore returned on Wednesday evening from Columbus, Ohio.

OUT OF THE MOUTHS OF BABES

"Dorothy," said a father to his little daughter, who had just returned from a juvenile party, "did you have any attention paid to you?"

"I don't know," replied the small babe.

"Why," asked the father, "didn't anyone talk to you or amuse you in any way?"

"Oh, yes," answered Dorothy, "one little boy made love to me."

An indignant husband may be all right, but much depends upon what he indulges in.

Eventually the mask will inherit the earth when Mr. Hohenzollern gets through with it.

INDIANS NOW ON WAR PATH AGAINST KAISER

6,000 AMERICAN RED MEN IN ARMY—AMERICAN NATIVES WRITING IN BLOOD A THRILLING CHAPTER OF PATRIOTISM

In South Dakota, nestled in a picturesque valley of the Grand River, there is a little settlement called Bullhead. It is not a great way from the scene of Custer's last fight against the circling Sioux.

Last December there took place at Bullhead a ceremony full of significance for the whole race of red men—full of meaning, indeed for all Americans.

These seven led a procession to the town hall. Trailing behind came Mary Crawler, a widowed squaw and the last woman survivor of the Battle of the Big Horn.

Within the hall was ablaze with red, white, and blue. The elaborate exercises included a tempest of war oratory, in the Indian tongue, but the climax was reached when Agnes One Elk, a Sioux maiden to whom the singular honor of carrying the flag had been given.

Well For the Dead

Over in France not long ago John Peters, a Menominee Indian serving with Company A, First Engineers, died of wounds received in a fight with the Germans.

But there are plenty of Indians waiting to avenge him. Down at Camp Bowie, near Fort Worth, Texas, Capt. Walter Beach commands Company E, One Hundred and Forty-second Infantry.

It is composed wholly of Cherokees, all volunteers. Through this camp alone there are scattered more than a thousand Indians. In Nebraska the Winnebagoes formed a company early in the war.

Alert to Issues Involved

These scattered pictures may give some hint of the concentrated enthusiasm of the red man for this war. Possibly the old instinct for battle, role

of the day, not so long gone, when every noble Indian was bred for the profession of arms, has something to do with it. But the Indians are extraordinarily alert to the issues involved.

The total Indian population of the United States is only 335,908. Of these just about half are citizens, 50,000 still speak their own languages and only 30 per cent. read and write English.

Fourteen tribes are represented in the service and when young enough the chiefs themselves have enlisted. In rank our Indian soldier scale down from major to private and almost every branch has lured some Indians.

Schools Are Service Centers

There are about twenty-five big Indian schools. Everyone of them is an automatic recruiting station fermenting with a very fever for service. Haskell Institute, at Lawrence, Kans., flies a service flag with 150 stars.

None of the many races which mingle in the American melting pot have a better liberty bond record than the Indians. They are not the wealthiest people of the world, but on the three loans they have managed to subscribe more than \$13,000,000—between \$30 and \$40 per capita.

Within the hall was ablaze with red, white, and blue. The elaborate exercises included a tempest of war oratory, in the Indian tongue, but the climax was reached when Agnes One Elk, a Sioux maiden to whom the singular honor of carrying the flag had been given.

In Every War Activity

In fact, the Indians have thrown themselves heartily into every war activity open to them. Many of the better educated red men have taken the stump to carry the message of embattled democracy to the less fortunate members of their race.

All over the West Indian boys are peddling about among the wild bogs gathering sphagnum moss to stanch the wounds of our fighting men in France. In food conservation and production the Indians have also excelled.

The story of American Indians with the Canadian overseas forces is a modern Hind. More than 500 enlisted from Winnipeg alone, in "Campbell's Scouts." These scouts were particularly proud of their dispatch runners.

Have Seen Fierce Fighting

Indians with the Canadian army have seen the fiercest kind of fighting. Sylvester Long Lance, the full blooded Cherokee from Carlisle, went through all the almost annihilating actions which immortalized the "Princess Pat's" only to be wounded on one

of the quietest sectors of the front. Private Ben Green, a Tuscarora Indian of New York state, fell as he thrust his way upward on Vimy Ridge, and there was a great pow-wow in the council house when he was invalided home.

Here and there in our own country the government had trouble with a few of the more remote tribes over the draft. In every case it was due to lack of transportation and information among the Indians.

The war attitude of the Indians at large has been a revelation of patriotism. The Indian insists that he is merely following his traditions—that from the old days back in 1609 when kindly Indians relieved the starving settlers at Jamestown he has always been a friend of the white man.

A CHANGE FOR THE BETTER

Ten years ago when there was every indication that Florida was about to take on a more rapid growth than she had ever known a number of thoughtful men were fearful of the results.

There was reason for this fear for there were very few farmers in Florida while there were tens of thousands of truckers. Naturally the supposition was that the producers of the state would continue in the same lines in which they were then operating.

But a change has come over the state that removes all danger of overproduction despite the rapid increase in population. Many of the old settlers are turning their attention to the larger crops that are not peculiar to the state and to the production of meats.

There are fruits that grow nowhere east of the Rocky Mountains except in Florida. Vegetables from this state can be delivered in the great cities of the North long before they begin to come into the market from any other state except California.

We look to see the fruit and vegetable production of Florida expand with the growing demands of the country but we predict that year by year Floridians will be less and less dependent on the old crops that have in the past been their only reliance.

An officeholder needs little pull if he has the push.
